February 14, 2007

This strategic plan is designed to guide the Georgia Department of Juvenile Justice through the next three years. The development of this plan brought together the Department's best and most reasoned input to revitalize our purpose and achieve our goals. To ensure that our practices spur advancements, we are using this document as a baseline against which our progress will be measured. Everyone is responsible for pursuing the objectives of this plan and ensuring that planning is continually promoted, institutionalized, and measured.

Maintaining the quality of service that we provide is only possible with the insight and care from staff across the State. As we continue to support each other in our work, I know that every day your dedication to improving lives of youth and ensuring public safety creates positive effects in Georgia communities. As an agency, we have much to be proud of. I look forward to continuing our work together and I anticipate greater successes in the future.

Sincerely,

Albert Murray
Commissioner
