AUDIT FINDINGS

PROGRAM DESCRIPTION AND FACILITY CHARACTERISTICS:

Atlanta Youth Development Campus (YDC) is an 80 bed facility housing all male youth that provides secure care, supervision and treatment services to youth who have been committed to the custody of DJJ for short and long term programs. The Atlanta YDC is a secure facility of brick and block construction renovated in 2009. The perimeter and recreation area is secured by a double-strand razor wire fence line. The facility has 57,484 square feet consisting of 4 separate living units which have 20 single cell rooms, 4 shower stalls, each with separate locking doors. Each Unit houses Juvenile Detention Counselors, Mental Behavioral Health Counselors as well as Residential Substance Abuse and Treatment (RSAT) Director Offices. There is a large gym utilized for recreation activities, graduations, speaking activity, and Positive Behavioral Interventions and Supports (PBIS) events. The gym also includes 1 classroom for Graduate Education Preparation (GEP) students. Atlanta YDC has a large Education Department with 8 classrooms to include a Library. Also, in the main building is the Central Control room equipped with intercom, radio communications, and CCTV video camera monitors covering the Atlanta YDC facility and grounds. The main hall of this facility has offices for the Institutional Program Director, Lieutenant, Medical Clinic, Designated Mental Health Authority (DMHA), Psychologist, Disciplinary Hearing Officer, Assistant Director of Programs, Nurse Manager, Captain/Chief of Security, and Assistant Director of Programs. A large multipurpose area located off of the main hall is utilized for meetings, church groups, PBIS events, DREAM Lounge, and leisure activities. Additionally a well equipped kitchen is located just off the main hallway with a dining hall for meal activities. The administration area of the main building houses the Facility Director, Director's Secretary, Training Lieutenant, Administrative Operations Manager, Financial Clerk, Administrative Clerk, and a front desk clerk. In the Administrative Area, the Atlanta YDC has a front control room. Outside the main building from the Multipurpose Area is a large space for recreational activities, sporting events, and other outside events and programs. Atlanta YDC provides Behavior modification classes, family counselling and transition services, therapy programs to help develop coping skills for every-day life challenges, foundational and exploratory programs that challenge and enhance the youth for assimilation back into the community. The Atlanta YDC facility is staffed with 95 security staff and 32 non-security staff.

SUMMARY OF AUDIT FINDINGS:

The PREA audit of the Atlanta Youth Development Campus (YDC), Georgia Department of Juvenile Justice, was conducted by McB Consultant Services, LLC, Dan McGehee lead auditor, and Richard Bazzle auditor, on March 11 and 12, 2015. The audit began with an entrance briefing with the facility assistant director of programs and department managers, as well as PREA staff from the Georgia DJJ. The auditors introduced themselves, as did others present. The lead auditor discussed with staff the audit schedule and presented the purpose for the audit. The Deputy Director of Programs led the auditors on a detailed tour of the facility, visiting all areas including: education, living units, intake, food service, gym, medical, visitation, and administration.

The auditors observed the posted announcement of the on-site audit in various locations throughout the facility; documentation of the postings were previously sent to the audit chair six weeks prior to the audit. Also noted were postings of phone numbers for both residents and staff to call to report PREA issues, as well as zero tolerance for sexual assault posters, both in Spanish and in English. No correspondence was received from the facility prior to the audit. Additionally, Georgia DJJ PREA staff sent by US Mail and electronically both the Pre-audit questionnaire and detailed electronic files for each standard. The material was reviewed by the auditors and found to be very well organized and thorough in content.

During the tour the auditor observed residents in school and recreation in the gym. Two residents were isolated in cells in living unit D following an altercation earlier in the morning, pending an investigation. Auditors observed good morale among residents and staff, and a juvenile population of 80 who were under constant supervision. Further, the facility has 167 cameras throughout to assist staff in supervision. The camera system can be accessed on desktop computers by the facility director as well as the Deputy Director for Security. Also, the facility director can access the cameras from both his phone and home computer. Auditors observed clear images from the cameras in the control center as well as in the desktop of the facility director.

During the tour the auditors discussed the following issues with staff:

Solid doors—there were several solid doors on closets and offices throughout the facility. Staff posted bright

pink signs overnight on all solid doors designating them as “off limit” areas to juveniles, and contacted DJJ engineering who arrived on 3/11/15 to determine the cost and feasibility of inserting windows in doors. Note: The audit team met the Regional Engineer on 3/12/15 who was present to assess the doors. He assured the team that DJJ is getting “right on this” and will have windows installed.

STATUS: ON-GOING

Camera blind spots—Auditors noticed a couple of blind spots concerning camera location. The facility director had a camera company perform a security study last week to both reposition existing cameras and prioritize installing additional cameras. In the meantime, to mitigate this issue, additional red lines were marked, designating “off-limits” for juveniles.

STATUS: ON-GOING

Tinted Windows/Gym— The recreation supervisor’s office in the gym had two large tinted windows as did the door to the classroom, thus not allowing anyone to see inside. The tinting was removed immediately on the classroom door, and removed overnight on the office windows. **STATUS: COMPLETE**
Auditors requested staff to consider other areas where tinting is used and determine its necessity given both PREA and security concerns.

Females supervising showers of male residents—During an interview with a female officer in a living unit, it was determined that she does supervise the shower process of assigned males. Showers have solid doors with 9” x 12” windows. The officer explained that she stood back from the door and did not peer in. According to facility staff, there had been no issues with this, nor grievances filed within the last year. In discussing this further with DJJ PREA staff who consulted with other central office staff, this process ended on 3/11/15 except in exigent circumstances. The post order was revised on 3/11/15, and language in the Ga DJJ policy prohibiting this will be clarified at the up-coming policy review.

STATUS: ON-GOING

Intake Process—Local policy as well as post order were not specific about conducting resident screening privately, i.e. multiple juveniles are received at one time for processing. Also, the intake shower had no curtain allowing assigned staff to clearly view the resident in the shower. Staff immediately revised the post order to require private screenings by securing other juveniles in separate holding cells. Also, a “PREA” friendly shower curtain was purchased for the shower, and engineering staff were contacted to hang a shower curtain rod.

STATUS: COMPLETE

Following the tour on 3/11/15, the auditors began interviewing both staff and residents to conduct formal, required interviews. Auditors also continued to review documentation and request additional documentation as required. Auditors exited the facility at 5:00 PM. Mr. Bazzle returned to the facility at approximately 6:00 staying until 7:30 PM interviewing two security staff formally, but being available to the entire shift if needed.

On 3/12/15 the auditors returned to the facility. Mr. McGehee again toured areas of the facility to observe work completed overnight to address concerns mentioned above, and Mr. Bazzle continued to conduct resident interviews.

Before the formal closeout with staff, Commissioner Niles of the Georgia DJJ stopped by to meet with auditors and see how things were going. He was very supportive of PREA and the auditors expressed their appreciation for what the agency is doing in this regard.

A formal closeout was conducted with facility and central staff at 11:30 AM. The auditors shared their comments with approximately 25 staff and explained the PREA process from this point. He commended the staff and the Georgia DJJ for their commitment to PREA. It was obvious in interviews and on the tour that both staff and residents are knowledgeable of PREA and practice required procedures each day. Mr. McGehee thanked the staff for their hospitality and commended them for the hard work completed. He also challenged them to continue the PREA commitment in the future.
