AUDIT FINDINGS

NARRATIVE

The Augusta Youth Development Center (AYDC) had its on-site PREA review February 23, 2016. Prior to the on-site review, the auditor was sent a thumb drive containing all necessary documents including policies, procedures, and other documents verifying compliance with the PREA Standards. The auditor arrived at the facility at 8:45 a.m. on February 23, 2016 and exited the facility at 9:00 p.m. that night. The interview with the Agency Head, the PREA Coordinator, the representative of the Georgia Network to End Sexual Violence, and the Field Supervisor of the DJJ Office of Investigations had previously been interviewed on February 10, 2016 on a previous PREA audit within the Georgia Department of Juvenile Justice.

Upon arrival at the Augusta YDC on February 23, 2016 introductions were made with the facility's Acting Director, Ronnie Richardson (who is the Regional Director for this region within the Georgia DJJ) and his management team and a tour of the facility was conducted, with select members of the management team present for the tour including the Acting Facility Director. Once the tour was complete, the PREA Auditor, the Agency PREA Coordinator and the Facility PREA Compliance Manager met and determined who needed to be interviewed. Once determined the auditor was moved into a small conference room and all interviews took place at this location. The PREA Compliance Manager insured that staff and residents were available for interviews. This process went very smoothly with little time between interviews. Because the facility security staff work twelve hour shifts, random staff interviews (five) occurred on the second shift which begins at 6:00 p.m. A total of 35 interviews were conducted during this audit using the approved questionnaires provided by PREA/DOJ (Department of Justice). The following is the list of interviews conducted at Augusta YDC:

- Agency Head designee 1
- Acting Facility Director 1
- Agency PREA Coordinator 1
- Facility PREA Compliance Manager 1
- Contract Administrator 1
- Medical/Mental Health Staff 4
- Intermediate and Higher Level staff 1
- Human Resources Staff 1
- Investigative staff 1
- Staff that Perform Risk Screenings for Risk of Sexual Abusiveness 1
- Incident Review Team 1
- Designated Staff Who Monitor Retaliation 1
- Intake staff 1
- Random Staff 10
- Random Residents 10
- Unannounced Rounds 1
- Volunteer 1

There were some categories of questionnaires that did not have any relevance during this audit because of the characteristics of the population and staffing plan i.e. no one had acted as a first responder or no resident present at the facility had claimed prior sexual victimization.

The facility was well prepared for this audit. Residents and staff alike were knowledgeable of PREA requirements

There had been a total of 15 allegations alleging sexual abuse or harassment. None were determined to be substantiated. All allegations were either unfounded or not substantiated, thus there were no criminal investigations only administrative investigations.

It should be noted that the Agency PREA Coordinator acted as the agency head for purposes of the interview with the agency head.

During the audit the facility director was not present due to a medical issue.

DESCRIPTION OF FACILITY CHARACTERISTICS

Situated on 456 acres currently occupying 250 acres, the Augusta Youth Development Campus was originally opened in the early 1950s. The square footage for the campus is approximately 237,467sq. ft. There have been several renovations completed since the opening of the facility and renovations are ongoing at this time. There are projects currently being worked including an upgrade to the current CCTV Monitoring System. The campus currently has 180 working cameras, and an additional 238 cameras are pending installation. This will increase the number of cameras numbers to 418.

The Augusta Youth Development Campus currently has 101 Security Positions and a total of 98 non security positions.

There are 6 living units at Augusta Youth Development Campus that permits for a maximum capacity of 120 youth. The living units include (1) open bay unit that provides Residential Substance Abuse Services, (2) General Populations housing units, (1) Mental Health housing unit, (1) Shelter housing unit and (1) Detention housing Unit. With the exception of the open bay unit, all units provide single occupancy rooms. While the open bay housing unit was in use during the audit it is to be closed by the end of February 2016 and the residents housed there will be moved into a newly renovated housing unit with single occupancy rooms. Each living unit is equipped to house 20 males at full occupancy. Each unit has 5 individual shower stalls with the exception of unit 26B which has 3 individual shower stalls.

The facility provides core educational programs and vocational classes in horticulture, computer skills, and building construction. The education building has a total of 13 classrooms. The Education Center offers several different programs including; Middle School, High School, GED Program, Graduate Education Program (Students with High School Diploma or GED). Education also offers a Title 1 after school remediation program, and finally a credit recovery program (students can earn high school credits on odyssey program). The Augusta Youth Development Campus has had 12 Students to earn GED's in the last 12 months and 1 High School Diploma earned in the past 12 months. The Georgia Department of Juvenile Justice School system is made up of all DJJ facilities and is called School District 181.

The Augusta Youth Development Campus Offers medical and mental health services, individual and group counseling and recreation services having a full size gymnasium The Augusta Youth Development Campus is an innovative, specialized program for the treatment of offenders with special needs. The Augusta Youth Development Campus Offers a variety of other programs for youth such as; R-SAT, Sex Offender, Anger Management, New Freedom, Thinking For a Change, Victim Impact and PREA. The Augusta YDC houses the most severe mental health and shelter youth in Georgia DJJ, along with those who have mental health needs that can be addressed and/or met in our general population units.

SUMMARY OF AUDIT FINDINGS

Number of standards exceeded: 4

Number of standards met: 36

Number of standards not met: 0

Number of standards not applicable: 1

Standard 115.311 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy #23.1 titled PREA pages 1-26
DJJ Organization Chart
Facility Organization Chart

The Georgia Department of Juvenile Justice has a zero tolerance policy toward sexual abuse. The policy includes the language that covers all aspects of the Prison Rape Elimination Act. Each Georgia DJJ facility follows this policy. The agency employs a full time Statewide PREA Coordinator who oversees the PREA process in the Georgia Department of Juvenile Justice. He is assisted by one part-time staff (29 hours a week). Each facility (27 total) under the Department's oversight have a PREA Compliance Manager including the Augusta Youth Development Center. An Administrative Lieutenant serves as the PREA Compliance Manager who said it takes most of her time to manage the PREA process..

Standard 115.312 Contracting with other entities for the confinement of residents

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Unannounced Rounds Reports

The facility has had an average daily population of 94 in the past 12 months. It has a bed capacity of 120. A Staffing analysis was conducted to ensure adequate staffing levels of 1:8 for Daytime hours and 1:16 staffing ratios for Nighttime hours. Unannounced rounds are conducted regularly by upper level staff and are recorded. There has been no staffing ratio deviations in the last 12 months. If a person fails to show for a shift, the person assigned to that shift must stay over and work the shift until another relief staff can be found. Staff also monitor video surveillance screens in the control center and these videos are also randomly checked. These videos can be saved for a period of approximately three (3) months for investigative purposes.

Standard 115.315 Limits to cross-gender viewing and searches

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Staff Training Record Examples

The facility has trained some of its female staff in conducting cross gender pat down searches. Policy dictates that only in exigent circumstances can a trained female staff conduct a pat down search of a male. Interviews with female staff that had been trained said they had never been in a situation requiring a pat down search of a male resident. In all staff interviews all said they were aware of the policy not allowing non-medical staff to conduct a search of a transgender or intersex resident for purposes of determining that persons genital status. Interviews with residents confirmed that they are not viewed by members of the opposite gender while showering or in a stage of undress or when using the toilet. The residents also confirmed that female staff announce their presence when entering the housing unit. Random staff interviews also revealed that staff announce their presence when entering a male housing unit and that they did not observe residents in toilet or bedroom areas.

Standard 115.316 Residents with disabilities and residents who are limited English proficient

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Special Education Teacher's Certificates

The facility has in place various ways for residents with disabilities to receive the required information and services related to PREA. This includes special education teachers for those students with learning disabilities. If a blind or hard of hearing resident is housed at the facility services can be arranged for that resident to be included in PREA related information and services. There were no residents meeting this criteria housed at the facility during the audit.

Standard 115.317 Hiring and promotion decisions

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

A Human Resources staff member indicated that criminal background and other sex registry checks are conducted by the Georgia DJJ Personnel Office. She also said staff have a continuing responsibility to disclose any such misconduct. All staff, volunteers and contractors must pass various background and sex registry checks before being allowed around residents. An accountability statement from the facility Director verified that all background and sex registry checks had been completed which is a requirement for employment. Potential staff must also complete a PREA Questionnaire that asks about any past occurrences of sexual abuse or harassment that the person may have been involved in.

Standard 115.318 Upgrades to facilities and technologies

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Accountability Statement

There are 180 cameras in place throughout the facility. More cameras (another 238) are planned in the very near future as well. There are video surveillance monitoring screens located in the central control room. These are observed by control room staff and can be saved for approximately three months for investigation purposes. An extensive study was conducted throughout the Georgia DJJ facilities to ascertain how many more cameras were needed. The study also looked at replacing solid doors, and reviewing blind spots in general. According to the PREA Coordinator, PREA requirements are

considered if any new facility is being planned or if there is a renovation needed.

Standard 115.321 Evidence protocol and forensic medical examinations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The facility does not conduct forensic medical examinations. These are either performed at a rape crises center with medical facilities or at the local hospital. The Georgia DJJ has an agreement with various rape crises/advocacy centers throughout the state to provide services to residents should the need arise. For residents at the Augusta YDC the University Healthcare System would provide these services. The state of Georgia has an organization titled Georgia Network to End Sexual Assault. This organization is made up of all 29 rape crises centers statewide. If a resident calls the rape crises hotline it will go to the nearest center. If there is no answer at that center, the call is made to the next nearest, and if no answer there then to the next center eventually contacting all 29 statewide centers if necessary. A contract exists with Global Diagnostic Services, Inc. to conduct SANE/SAFE Services. There also exists within the Georgia DJJ an office of victim services who can provide advocacy services for incarcerated residents. The Georgia DJJ does an excellent job of providing PREA related services to it's residents and exceeds the standard's requirements.

Standard 115.322 Policies to ensure referrals of allegations for investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. Policy 8.5 titled Special Incident and Child Abuse Reporting pages 1-23
Policy 22.3 titled Internal Investigations pages 1-7

The DJJ Office of Investigations conducts all investigations within DJJ facilities including PREA investigations. There are 22 trained investigators and five of those are specifically assigned to PREA (one is a supervisor). All investigators are sworn police officers. All investigators have been trained in the

PREA requirements including the training for investigators by the NIC (National Institute of Corrections Curriculum). There are policies and procedures covering the conduct of all investigations. If an allegation is substantiated and is criminal, the investigator turns the case over to the local prosecutor. The Office of Victim Services informs residents of the outcome of investigations. There has not been any substantiated PREA allegations substantiated at the Augusta YDC. There was a total of 15 allegations received in the last 12 months (non substantiated). The Director of the facility is responsible for maintaining contact with investigators of the progress of any such investigations.

Residents acknowledged receiving PREA related information from the Intake Officer and viewed a PREA video during the intake process. Each resident signs off acknowledging receipt of this information and resident interviews confirmed their awareness of PREA. The facility has posters throughout the facility in both English and Spanish. There are also posters showing the various telephone numbers and addresses of rape crises centers about who to contact in the event of a situation involving sexual abuse or harassment. The agency/facility also provide age appropriate reading materials to residents for dealing with sexual abuse and harassment. These publications are age appropriate and contain cartoon characters that explains PREA. These are also available in Spanish and English. PREA is also discussed during resident group meetings. The facility has a PREA Group that meets regularly exceeding the requirements of the standard.

The DJJ and facility provide numerous ways to report a PREA incident within the agency as well as outside the agency. There are posters throughout the facility with multiple telephone numbers and addresses for residents to report any abuse or harassment. The residents are also given handbooks with PREA reporting methods and brochures are given to them on intake. The process of a resident reporting through the local rape crises centers is excellent. If a phone number of one the rape crises centers is called and no one answers it keeps calling every (29) rape crises center until it is answered thus ensuring an immediate response. There is also an agency tip line available to parents or friends to call in a report of sexual abuse in a facility. A resident can also contact the ombudsman or tell any staff member as well as parents and friends. The national PREA hotline can also be called by residents. If a non-English speaking resident is admitted, there is a list on the wall in the intake area of various languages so that resident could identify the language he speaks. There have been no foreign nationals being admitted to the facility but foreign consular telephone numbers and addresses are provided if needed.

Policy 23.1 titled PREA page 18 A-C
Policy 8.5 titled Special Incident and Child Abuse Reporting pages 13-18

All DJJ staff including medical and mental health are required to report any knowledge or suspicion of a resident who may have or was sexually assaulted harassed, or retaliated against for reporting abuse. Staff are also required to report these events if they know a staff was negligent in their duties or responsibilities that may have led to a sexual abuse or harassment event. Staff interviewed acknowledged being aware of these requirements. All staff interviewed including medical and mental health staff were aware of who to report any abuse or harassment. All allegations are reported (either by the Facility Director or the PREA Compliance Manager) to the DJJ Office of Investigations immediately. If a resident is under the guardianship of the court, the resident's attorney of record or other legal representative is notified. If the resident is under the authority of the Child Welfare System (Department of Family and Children) the resident's case worker is notified within the required time frames but usually within the first 24 hours after an allegation.

First Responder Checklist of Things to Do
Accountability Statement

To date there has not been a situation where a staff member has had to utilize the first responder checklist. (no abuse was observed by staff requiring the first responder duties to come into effect). However, staff said in interviews they knew what to do. There is a checklist of first responder duties that outline the various steps in the process. Because of the infrequency of these events the auditor would recommend having first responder duties printed on laminated pocket cards provided to staff. These could be carried in a staff's pocket or attached to their state issued identification card holder.
