The Georgia Department of Juvenile Justice (DJJ) mandates zero tolerance toward all forms of sexual abuse and sexual harassment in facilities it operates directly or under contract; outlines how the Atlanta YDC will implement the agency's approach to preventing, detecting, and responding to sexual abuse or sexual harassment; includes definitions of prohibited behaviors; includes sanctions for those found to have participated in such behaviors; and includes a description of agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of residents.

DJJ employs an agency PREA Coordinator. The agency PREA Coordinator has complete and unrestricted access to all agency facilities, contract/residential programs, offices, records, staff, and residents. Facility staff, contract providers, and community service staff must cooperate fully with the agency PREA Coordinator without fear of reprisal or reprimand. Additionally, the Deputy Commissioner of Secure Facilities or designee ensures that each facility designates a PREA Compliance Manager.

DJJ has a comprehensive approach when it comes to PREA. From the Commissioner to the direct care security staff, PREA is a part of every aspect of the agency and its facilities. The agency PREA Coordinator is involved with PREA decisions and implementation at the highest level of the agency. Additionally, the PREA policy is structured by subject matter and includes references to the PREA Juvenile Standards established by the U.S. Department of Justice, thereby allowing the reader of the policy to discover relevant policy provisions by topic corresponding to standard. Atlanta YDC and DJJ exceed the standard through their comprehensive approach and strong commitment to zero-tolerance toward sexual abuse and sexual harassment.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Atlanta YDC develops, implements, and documents an approved staffing report that provides for adequate levels of staffing and, where applicable, video monitoring, to protect resident against sexual abuse. Each time the staffing plan is not complied with, the facility will document and justify all deviations from the staffing plan.

The Secure Facility Staffing Report System is a valuable internet-based tool that provides the agency PREA Coordinator and other administrative staff current staffing ratios and actions taken to address possible deviations from the staffing plan, by shift and by facility.

Atlanta YDC is required to review, make adjustments to, and complete the Facility Annual Staffing Report. The report is submitted with the required signatures to the Agency PREA Coordinator by the 10th of December of each year.

Intermediate and higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The unannounced rounds cover all shifts and all areas of the facility. At least two unannounced rounds must be conducted per month. Staff are prohibited from alerting other staff of such rounds. All unannounced rounds must be documented using the Unannounced PREA Rounds form.

Interviews

- Facility Director

The Facility Director confirmed Atlanta YDC regularly develops a staffing plan. Adequate staffing levels to protect residents against sexual abuse are considered in the plan. Video monitoring is part of the plan. The staffing plan is documented through the Facility Annual Staffing Report. He confirmed the assessment of the facility staffing plan considers all factors required by the standard. He checks for compliance with the staffing plan with the Secure Facility Staffing Report System. He reported the facility has not deviated from the staffing plan during the twelve-month audit period but would document deviations if they were to occur. He confirmed ratios are 1:8 during resident waking hours and 1:16 during resident sleeping hours.
- Agency PREA Coordinator

The Agency PREA Coordinator confirmed being consulted regarding any assessments of, or adjustments to, the staffing plan for Atlanta YDC. He confirmed the assessment occurs annually and is documented through the Facility Annual Staffing Report.
- Facility PREA Compliance Manager

The Facility PREA Compliance Manager confirmed that when assessing adequate staffing levels and the need for video monitoring, the assessment of the facility staffing plan considers all factors required by the standard.
- Intermediate or Higher-Level Facility Staff

The interview confirmed the documented, unannounced, supervisory rounds occur on all shifts and staff are not alerted when they occur.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Atlanta YDC does not conduct cross-gender strip and body cavity searches of residents. Cross-gender pat down searches may only be conducted in exigent circumstances, which are any set of temporary and unforeseen circumstances that require immediate action to combat a threat to the security or institutional order of the facility. All such searches must be documented detailing the exigent circumstances using Attachment C, Cross Gender Searches Documentation. The PREA Compliance Manager and the Facility Director are the only staff trained and permitted to conduct cross-gender pat-down searches.

Apart from medical examinations or urine drug screens, staff will not view residents showering, performing bodily functions, or changing clothing except when such viewing is incidental to routine cell checks. Showers are conducted behind doors or "PREA shower curtains" that allow for privacy. Female staff members announce their presence when entering a resident housing unit.

Facility non-medical or medical staff do not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it may be determined during a conversation with the resident or if necessary, by learning that information as a part of a broader medical examination conducted in private by a medical practitioner.

The gender of the staff member searching a transgender or intersex resident is determined on a case-by-case basis and takes in to consideration the gender expression of the resident. No cross-gender, transgender or intersex resident searches have occurred within the twelve-month audit period.

Interviews

- Random Sample of Staff

All staff interviewed confirmed female staff are restricted from conducting cross-gender pat-down searches of the residents. All staff interviewed confirmed they are aware of the policy prohibiting them from searching or physically examining a transgender or intersex resident for purpose of determining the resident's genital status. All staff interviewed confirmed female officers announce their presence when entering a housing unit. All staff interviewed confirmed residents can dress, shower, and use the toilet without being viewed by female staff.

- Random Sample of Residents

All residents interviewed confirmed female staff announce their presence when entering the housing area or any area where they shower, change clothes, or perform bodily functions. All residents interviewed stated female staff have never performed a pat down search of their body. All residents interviewed stated they are never naked in full view of female staff.

- Transgendered and Intersex Residents

No residents identified as transgender male, transgender female or intersex during the on-site audit.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. DJJ Office of Investigations PREA Unit conducts administrative and criminal sexual abuse investigations. The Office of Investigations and Georgia Bureau of Investigations (GBI) Evidence Protocol follows the guidelines of the "National Protocol for Sexual Assault Medical Forensic Examinations". All residents who experience sexual assault have access to forensic medical

examinations at no cost. When SANEs or SAFEs are not available, a qualified medical practitioner will perform forensic medical examinations. DJJ documents efforts to provide SANEs or SAFEs. Atlanta YDC does not conduct forensic medical examinations. Examinations would be performed at Grady Memorial Hospital.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The Atlanta YDC completes a PREA Screening Report (PSR) on all residents who enter the facility. The first question the intake officer asks each resident is "Have you been sexually exploited, assaulted, raped, and/or molested within the past 72 hours?" If the resident answers yes, then the staff will immediately follow the protocol for preserving and protecting the evidence, reporting the incident, and obtaining medical, victim advocate and investigative services.

If the resident answers no, the regular intake procedures will proceed to determine the resident's risk of sexual victimization and abusiveness. DJJ uses a comprehensive risk assessment process. Extensive, individual risk assessments such as medical assessments, mental health assessments, nursing health appraisals, physical examinations, education level and other risk factors are entered into a database. The database then populates the required PREA information into a single objective screening instrument, the PREA Screening Report (PSR).

The PREA Screening Report ascertains: prior victimization; and gender nonconforming appearance or manner or identification as LGBTI, and whether the resident may therefore be vulnerable to sexual abuse; current changes and offence history; age; level of emotional and cognitive development; physical size and stature; mental illness and disabilities; intellectual or developmental disabilities; physical disabilities; the resident's own perception of vulnerability; and any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents. The Facility Director or designee reviews the report and determines the resident's risk level of sexual victimization or abusiveness. This process enables housing assignments and all other PREA related decisions to be made with all the necessary information needed to make informed decisions.

The Facility PREA Compliance Manager disseminates results of the PREA Screening Report to the facility management team on a need-to-know basis. Staff members working directly with the residents are advised of the status of a resident at risk of victimization or a resident that is at risk of harming others. The facility treatment team members and program and supervising staff continually review a resident's adjustment within the facility to reduce the risk of sexual abuse by or upon a resident.

The inclusive, team-focused approach of assessing residents' risk for sexual victimization and abusiveness demonstrates DJJ policies, practice, and procedures exceed the requirements of the standard.

Interviews

- Agency PREA Coordinator
The Agency PREA Coordinator confirmed Georgia DJJ policy outlines who should have access to a resident's risk assessment within the facility in order to protect sensitive information from exploitation.
- Facility PREA Compliance Manager
The Facility PREA Compliance Manager confirmed policy outlines who should have access to a resident's risk assessment within the facility in order to protect sensitive information from exploitation.

- Staff Responsible for Risk Screening

The PREA Compliance Manager confirmed residents are screened upon admission to the facility or transfer from another facility for risk of sexual abuse victimization or sexual abusiveness toward the other residents. The risk screening occurs in less than 72 hours of intake. The initial intake screening includes all factors required by the standard. The information is ascertained by asking the residents questions. Resident’s risk levels are reassessed after an allegation of sexual abuse or sexual harassment.
- Random Samples of Residents

Two (2) residents interviewed entered the facility prior to the past twelve months. The fourteen (14) residents interviewed, who entered the facility within the past twelve months, confirmed they were asked questions like the following examples at intake:

 - (1) Have you have ever been sexually abused?
 - (2) Do you identify with being gay, bisexual or transgender?
 - (3) Do you have any disabilities?
 - (4) Do you think you might be in danger of sexual abuse at the facility?

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Housing, bed, program, education and work assignments are based on the PREA Screening Report. LGBTI residents are not placed in particular housing, bed, program, education and work assignments. Their identification or status is not considered as an indicator of likelihood of being sexually abusive.

Placement and programming assignments for transgender or intersex residents are reassessed at least every six months to review any threats to safety experienced by the resident. A transgender or intersex resident's own views with respect to his or her safety will be given serious consideration. Transgender residents are given the opportunity to shower separately from other residents. The facility reported not having any transgender or intersex residents during the twelve-month audit period.

Isolation is only used as a last resort, if less restrictive measures are inadequate, and only until an alternate means of providing safety can be arranged. The basis and reason for isolation would be documented. While isolated, residents receive educational programming, special education services, daily large-muscle exercise, and daily visits from a medical or mental health care clinician. Continuation of isolation would be assessed weekly and reviewed every 30 days. The Facility Director reported placing no residents at risk of sexual victimization in isolation within the twelve-month audit period.

Interviews

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DJJ provides residents with numerous, internal and external methods for reporting sexual abuse and sexual harassment, retaliation by other residents or staff for reporting such incidents, and staff neglect or violation of responsibilities that may have contributed to incidents of sexual abuse or sexual harassment. Residents can report in writing by completing a help request form or grievance form. Residents can report verbally to a counselor, medical or mental health staff; the Facility Director or Assistant Director, parent or guardian, chaplain, minister, Facility PREA Compliance Manager, or any trusted staff member. All verbal reports are documented by using the Special Incident Reporting (SIR) form. Residents can report by calling or contacting the DJJ Office of Victim Services, the DJJ Office of the Ombudsman, by using the DJJ Online Intelligence Tip Form: "If You See Something, Say Something", and by calling the external National Sexual Abuse Hotline.

Calls to the National Sexual Abuse Hotline are routed through Georgia's sexual assault coalition of rape crisis centers, the Georgia Network to End Sexual Assault (GNESA). GNESA is a coalition of 27 rape crisis centers. If a resident calls the National Sexual Abuse Hotline, the call is routed to the local rape crisis center. If their call is unanswered, the calling system allows a resident's call to be transferred to the next nearest rape crisis center until the call is answered, eventually contacting all 27 statewide centers if needed. It provides an exceptional service for a resident reporting sexual abuse. The advanced calling system ensures a resident's call will be answered.

The DJJ Online Intelligence Tip Form is available on the agency's website. Contact information for the Intelligence Tip Form is included on PREA posters in the facility. The Intelligence Tip Form provides an avenue for the public, parents, or friends to report sexual abuse in the facility. They can do so as third-parties and provide anonymity if the resident requests to remain anonymous.

Various English and Spanish language posters provide a list of phone numbers and/or mailing addresses for resident access to outside support services and legal representation. Phone numbers are listed for the following: National Sexual Assault Hotline, Georgia DJJ Office of Victim Services,

United States Immigration and Customs Enforcement, Georgia DJJ Office of Ombudsman, the Georgia Center for Child Advocacy and the Georgia Department of Family and Children Services. In addition to posters, residents are provided reporting information in English and Spanish by way of Student Handbooks, the Youth Safety Guide for Secure Facilities, the PREA Intake Flyer, and the Youth Safety Tips handout.

If a non-English speaking resident is admitted, interpretive services are available from LanguageLine Solutions, 800-523-1786. A Language Identification Chart is available for residents to point at the language they speak.

DJJ has been innovative and resourceful in providing avenues for residents to report sexual abuse and sexual harassment, retaliation by other residents or staff for reporting such incidents, and staff neglect or violation of responsibilities that may have contributed to incidents of sexual abuse or sexual harassment. The numerous and broad range of methods DJJ provides residents for reporting exceeds the requirements of the standard.

There have been no residents detained solely for immigration purposes within the twelve-month audit period.

(Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time [the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)], does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA

- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (If a third party, other than a parent or legal guardian, files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) 115.352 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. Atlanta YDC uses the grievance process as an administrative procedure to address resident allegations regarding sexual abuse and sexual harassment. Grievances regarding sexual abuse and sexual harassment are not resolved informally. The facility places no time limits on when a resident may submit a grievance for such incidents. Grievances are not referred to a staff member who is the subject of the complaint, but may be submitted to a staff member who is not the subject of the complaint.

Grievances alleging sexual abuse will be processed immediately, but no later than 24 hours of receipt, and assigned for investigation. DJJ shall issue a final ruling within 45 days of the initial filing of a grievance. Extensions may be approved by the DJJ Commissioner or designee and residents will be notified in writing. Emergency grievances alleging a resident is subject to imminent sexual abuse

require the Facility Director or designee to provide a response within 24 hours and a final decision within 5 days. Residents are disciplined for grievances filed in bad faith.

DJJ permits third parties, including fellow residents, staff members, family members, attorneys, and outside advocates to assist residents in filing grievances and appeals. These same individuals may file a grievance on behalf of a resident. If a resident declines to have a grievance processed on their behalf, the decision is documented. A parent or legal guardian may file a grievance although the resident has declined.

The PREA Compliance Manager is charged with monitoring for retaliation. There were no incidents of retaliation reported within the twelve-month audit period.

The Agency PREA Coordinator stated housing changes or transfers as some examples of measures to protect residents or staff who report retaliation.
- Facility Director
The Facility Director stated resident housing changes and transfers and staff suspensions and no contact status as some examples of measures to protect residents or staff who report retaliation.

- Designated Staff Member Charged with Monitoring for Retaliation

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DJJ Office of Investigations conducts administrative and criminal investigations into allegations of sexual abuse and sexual harassment, promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. The Office of Investigations has authority as sworn officials to investigate all allegations of criminal violations occurring at Georgia DJJ facilities. The Office of Investigations may coordinate its investigative efforts with the appropriate law enforcement agencies such as the GBI, and local law enforcement as needed.

All Georgia DJJ PREA investigators have received specialized training including: techniques for interviewing juvenile sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. They are required to complete NIC online training.

Investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data. They interview alleged victims, suspected perpetrators, and witnesses and review any prior complaints and reports of sexual abuse involving the suspected perpetrator. Investigations are not terminated solely because the source of the allegation recants the allegation.

The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as resident or staff. DJJ doesn't require a resident who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

All PREA related investigations must be completed within 30 calendar days from case assignment unless the investigation is handled by outside agencies or as approved by the Director of Investigations. The investigator will produce a final investigative report. The report will determine whether staff actions or failure to act contributed to the abuse and include a description of the physical and testimonial evidence, the reasoning behind the credibility assessments, and the investigative facts and findings.

DJJ retains all written investigations and Special Incident Reports (SIR) as long as the alleged abuser is incarcerated or employed plus five years, unless the abuse was committed by a juvenile resident and applicable law requires a shorter period of retention.

When outside agencies investigate sexual abuse, the facility cooperates with outside investigators and endeavors to remain informed about the progress of the investigation. The Director of Investigations is the official liaison with all outside law enforcement agencies.

The facility had no allegations of sexual abuse or sexual harassment that appeared to have been criminal and were referred for criminal prosecution within the twelve-month audit period.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Atlanta YDC residents may be subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse or following a criminal finding of guilt for resident-on-resident sexual abuse.

Any disciplinary sanctions are commensurate with the nature and circumstances of the abuse committed, the resident's disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. Also, the disciplinary process considers whether a resident's mental disabilities or mental illness contributed to the behavior when determining what type of sanction, if any, should be imposed.

If the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, the facility would offer the offending resident participation in such interventions. The agency does not require participation in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives. Participation is not required for access to general programming or education. The Director of the Office of Investigations will refer youth for criminal prosecution when appropriate. The agency will discipline a resident for sexual contact with staff only upon finding the staff member did not consent to such contact. Isolation is not used as a disciplinary measure for resident-on-resident sexual abuse.

The facility prohibits disciplinary action for a youth reporting sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation.

DJJ has a zero-tolerance policy toward all sexual activity between residents and may discipline residents for such activity. The agency deems such activity to constitute sexual abuse only if it determines that the activity is coerced.

There was one (1) administrative or criminal findings of resident-on resident sexual abuse at the facility within the twelve-month audit period.

Interviews

- Facility Director
The Facility Director confirmed sanctions would be proportionate to the nature and circumstances of the abuses committed, the residents' disciplinary histories, and the sanctions imposed for similar offenses by other residents with similar histories. A resident's mental disability or mental illness is considered in determining appropriate disciplinary sanctions. Isolation is not used as a disciplinary sanction for resident-on resident sexual abuse.
- Mental Health Staff
Mental Health Staff confirmed that counseling would be available for residents who have been determined to have committed resident-on resident sexual abuse. He confirmed if a resident

refuses to participate in counseling they would not be denied access to education and other programming.
