

DEPARTMENT OF JUVENILE JUSTICE SCHOOL SYSTEM

2022 Annual Professional LEARNING

July 11-14

“BECOME AGENTS OF CHANGE”

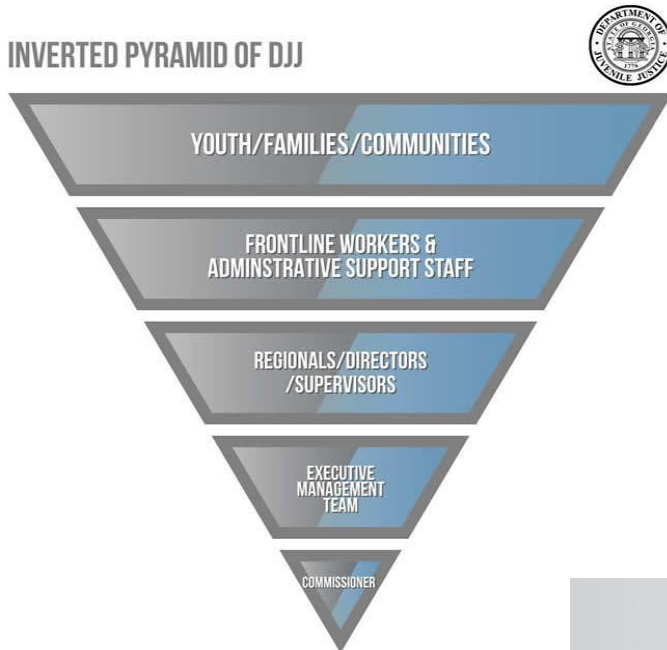

LEGACY LODGE: 7000 Lanier Islands Parkway, Buford, GA 30518 | (770) 945-8787

OUR MISSIONS, CORE VALUES & CULTURE

The Mission of the Georgia Department of Juvenile Justice is to transform young lives by providing evidence-based rehabilitative treatment services and supervision, strengthening the well-being of youth and families, and fostering safe communities.

School System's Mission Statement:

We are committed to providing an education that empowers life-long learners to reach their potential and become college and career ready.

CORE VALUES

The “Inverted Pyramid,” displays DJJ’s core values and emphasizes that the department’s most important objective is to focus on youth, families, communities and the frontline workers/administrative support staff serving them daily.

CULTURE

The DJJ Culture Wheel represents the agency’s values and reinforces the commitment we have to our employees and the youth in our care. Each spoke of the DJJ Culture Wheel represents a different aspect important to the success of the agency.

WELCOME MESSAGE FROM COMMISSIONER

Greetings DJJ School System Staff,

I want to welcome each of you to our school system's 2022 Professional Learning. The theme of this professional learning is "Become Agents of Change". As we have worked over the last few years throughout the agency to change our culture, I have encouraged each of you to "Be the Change" that will make DJJ a more positive and productive environment for both staff and students.

Part of changing our culture was the development of our Culture Wheel. You will notice the Culture Wheel included in this program and each session has been aligned with the Culture Wheel. I encourage you to apply the Culture Wheel throughout the day with both colleagues and students.

I want to thank you for the hard work, dedication, and commitment that you have shown each day. Your efforts have resulted in our students earning high school diplomas, GED diplomas, and Technical Certificates of Credit. This prepares them for successful reentry back into their communities.

Thank you again and enjoy this professional learning.

Commissioner Tyrone Oliver

WELCOME MESSAGE FROM DEPUTY SUPERINTENDENT

Dear DJJ Staff,

I am excited to welcome everyone to our 2022 Annual Professional Learning! This professional learning serves a two-fold purpose. It is a time for us to reflect upon the many successes we have had over the last school year, and it is also a time for us participate in workshops and sessions that will enhance and improve instructional delivery, program capacity, and staff development. We have over 60 sessions available to choose from this year in addition to a keynote speech from Georgia State School Superintendent Richard Woods and a Staff Appreciation luncheon.

As many of you know, I have been with the Department of Juvenile Justice for over 24 years. I have seen much growth and improved services throughout those years. The two things that have remained constant though are the desire our school system staff has to educate our students, and the belief that they will be successful, productive citizens of Georgia when they return to their communities. I want to thank each of you for believing in our students and for your continued commitment to their education.

Enjoy our 2022 Annual Professional Learning!

Zane Shelfer

KEYNOTE SPEAKER

Richard Woods, Georgia's School Superintendent

Richard Woods was elected as Georgia's State School Superintendent in November of 2014 and reelected in 2018. Woods has over 29 years of Pre-K through 12th-grade experience in public education. He was a high school teacher for 14 years, serving as department chair and teacher mentor. For eight years, Woods served in administrative roles including assistant principal, principal, curriculum director, testing coordinator, Pre-K director, and alternative school director.

During his time as State School Superintendent, Woods has remained laser-focused on the classroom and the wellbeing of Georgia's students. Under his leadership, the state has seen its largest-ever reduction of high-stakes testing requirements, an all-time high graduation rate, a 97% graduation rate for Career Pathway completers, and steady increases in SAT and ACT scores.

Georgia has expanded STEM (science, technology, engineering, and math) education, introduced STEAM (science, technology, engineering, arts, and math) school certification, and introduced new student opportunities in the areas of personal finance, fine arts, and Career, Technical, and Agricultural Education. The Georgia Department of Education has hired its first-ever employees dedicated to supporting the fine arts and military students, and established an Office of Whole Child Supports, an Office of School Safety and Climate, and an Office of Rural Education and Innovation.

Superintendent Woods has been honored with the National Art Education Association's Distinguished Service Outside the Profession Award, the Patriotic Employer Award from Employer Support of the Guard and Reserve (a Department of Defense office), and the Honorary American FFA Degree by the National FFA Organization.

He and his wife, Lisha, a retired 30-year educator, are longtime residents of Tifton and have been married for 31 years.

Social Emotional Wellness/Self-Care (All Staff)***Session will repeat*****Dr. Doug Jackson, Barbara Gibson** (DJJ Office of Behavioral Staff)

We have all probably read articles (or have been lectured by friends who have read articles) along the lines of “On average, people who experience well-being exercise at least (fill in the blank) minutes a week”. Or “On average, people who experience well-being have daily contact with 2.45 people per day.” On average, none of us are populations averages; we are real people. On average, the path to wellness is going to be different for each of us. In this presentation Dr. Christine Doyle (Director of the Office of Behavioral Health) and Dr. Doug Jackson (Clinical Program Manager) will present some broadly accepted components of wellness and then turn a satirical eye on how prefabricated platitudes may not be helpful. The presentation will then feature participant exercises on what the audience finds helpful and where they could use some help.

Juveniles in Detention --- Who, What, When, Where, Why, & How (All Staff)**Cathy Dravis** (Program Coordinator, DJJ Community)

Ever wonder how a youth ends up in a detention facility? What is a detention assessment and who do we use it for? When, where, and why the community staff impact this process? There are many steps in the process that a youth goes thru to get into (and out of) a youth end up in our facilities and what impact staff have on that process. We will also go over the detention assessment that is utilized in Georgia, the importance of this tool and how we got to this point.
