COMMISSIONER'S MESSAGE

It is an honor to present the Georgia Department of Juvenile Justice (DJJ) Fiscal Year 2021 Annual Report. This report will reflect the agency's accomplishments as we work to transform the young lives in our care.

Under the leadership of Governor Brian P. Kemp, DJJ focused on restoring youth inside and outside of DJJ facilities through pro-social programs, education, mentorship, and intense wraparound services. For example, in partnership with Southwest Key Programs, DJJ opened an Evening Reporting Center (ERC) in Valdosta, Ga., to provide structure and supervision to justice system-involved youth at risk of recidivating. The evidence-based 90-day program encourages positive behavior, youth accountability, community safety, and competency development. This community-focused approach has increased youth educational opportunities and job placement, decreasing gang affiliation and increasing successful societal reentry.

DJJ has fostered an environment that elevates the importance of teamwork, leading to stronger relationships between team members and external stakeholders. Through the Department's work with the Youth in Custody Practice Model, DJJ developed a balanced approach to addressing areas of need. In the fall of 2020, the agency released an employee engagement survey to help DJJ leadership better understand employee morale, agency culture, and how to improve operational procedures. The employee survey helped identify a baseline for change and implementation of new practices, processes, and programs.

The agency has also expanded efforts to shift the culture by proactively providing employees with resources that support well-being. DJJ launched the Transforming U employee wellness initiative, which focuses on the six wellness pillars, including physical, mental, social, spiritual, financial, and emotional health. Under this initiative, employees now have access to monthly Lunch and Learn webinars and a Peer Support Team.

Because of hearts dedicated to service, the Department has made many strides in positively impacting youth. DJJ employees strive to cultivate a spirit of positivity, be exemplary role models for youth, and be driving forces in communities that will help put us on a path towards being a leader amongst juvenile justice agencies.

I am grateful for the opportunity to continue serving the State of Georgia. Thank you for your continued support of the Department of Juvenile Justice.

Sincerely,

INVERTED PYRAMID OF DJJ

The Inverted Pyramid displays DJJ's core values and emphasizes that the department's most important objective is to focus on youth, families, communities, and the frontline workers and administrative support staff serving them daily.

STRATEGIC GOALS

The top five strategic goals for the Department were developed to provide clarity of the mission and set forth expectations for all Department personnel while conducting business operations.

By establishing these goals, DJJ works to fully align all objectives, programs, and services offered to youth that the Governor has outlined.

1

Operate safe and secure facilities and communities while providing educational opportunities in a safe and supportive environment

2

Provide a robust continuum of evidence-based behavioral health programs and services delivered to DJJ youth facilities and communities

3

Establish strategies that have a positive impact on gang-impacted youth in facilities and communities

4

Establish effective responses to the needs of human trafficking victims and families

5

Promote recruitment, retention, and succession planning

FY2021 ACCOMPLISHMENTS

DJJ's dedicated employees strive to demonstrate the change necessary to create and sustain an agency culture that values accountability, integrity, security, superior performance, ongoing personal growth, intellectual curiosity, innovation, teamwork, and leadership not only in staff but also in the young people in the agency's facilities and programs. Here is a brief look at the Department's accomplishments in FY2021.

FY2021 ACCOMPLISHMENTS

The Division of Administrative Services applied for and was awarded **\$1.5 million** from the Governor's Office of Student Achievement for upgrades to the Department's educational classrooms' digital networks and digital devices.

- **DJJ School System youth** earned 31 high school diplomas, 50 GED diplomas, and more than 140 certifications.
- **The Division of Support Services** implemented the new Skillstreaming the Adolescent group curriculum in RYDCs to address the needs of youth who display behavioral problems and to support youth with the necessary skills to lead effective and satisfying relationships.

- **The Division of Secure Facilities** implemented new technology to increase the safety and security of facilities, staff, and youth. Using innovative technological applications, including the Intercept body scanner and Axon body cameras, the division can more effectively control and prevent contraband, record and verify service provision and youth status, and more consistently document interactions between youth and staff.

The Division of Community Services provided residential placement services to an average of **230** youth monthly in **62** residential locations statewide.

WHAT DJJ DOES AND WHY IT IS IMPORTANT

The Georgia Department of Juvenile Justice is a multi-faceted agency that serves the state's youthful offenders' needs up to the age of 21. The Department has more than 3,400 funded positions at its Central Office, 25 secure facilities (19 Regional Youth Detention Centers and six Youth Development Campuses) and 78 Community Services Offices throughout the state to affect justice and redirect the young lives in the agency's care.

Including those placed on probation, thousands of youths are diverted each year to evidence-based community programs, sentenced to short-term incarceration, and committed to long-term custody by juvenile courts. DJJ's professional corrections and law enforcement staff preserve public safety, safeguard Georgia's citizens, and protect victims of crime. DJJ holds juvenile offenders accountable for their delinquent conduct through a rehabilitative treatment model while under probation, supervision, or secure confinement.

While under DJJ supervision, the agency provides youth with educational opportunities by some of Georgia's best teachers and administrators. Youth also receive medical, dental, and mental health treatment from qualified professionals who provide a range of services and support. DJJ offers programs designed to equip the youth in its care with the social, intellectual, and emotional tools needed to achieve successful re-entry into the community and workplace as more productive and law-abiding citizens.

DJJ LEADERSHIP

The DJJ executive leadership team sets the Department's strategic direction. The leadership team drives the core mission and vision that strengthen the agency's daily work. DJJ leaders are passionate and focused veterans in their respective fields.

DIVISION OF SECURE FACILITIES

The Division of Secure Facilities manages 19 Regional Youth Detention Centers (RYDCs) and six Youth Development Campuses (YDCs). RYDCs provide temporary, secure care and supervision for youth who have been charged with offenses or who have been adjudicated delinquent and are awaiting placement in a community program or a long-term facility. YDCs provide long-term care for youth committed to DJJ who are ordered to secure confinement or require specialized treatment or services.

Each facility provides youth services, including education, health and mental health services, food services, resident counseling, substance abuse treatment, volunteer programming, and family visitation.

FY2021 ACCOMPLISHMENTS

Facility Re-Missioning

The Division of Secure Facilities has initiated a re-missioning initiative to enable long-term facilities to provide therapeutic, programmatic, and educational services to youth more effectively and efficiently.

- By identifying and aligning behavioral health groups, substance abuse treatment, educational opportunities, and Career, Technical, and Agriculture Education (CTAE) programs in specific facilities, DJJ can place youth in facilities that will most effectively allow them to receive the treatment needed to make positive changes and reenter their communities.
- Opportunities for early release and step-down have been expanded to increase the number of youth who may qualify under existing criteria and be available to youth who previously were not eligible.

The upgrade of Guard1 Plus will allow for increased safety and accountability in day-to-day activities and real-time verification of service provision.

Increased Security through Technology

The division has also implemented new technology to increase the safety and security of facilities, staff, and youth.

- **The Intercept body scanner** was installed in 10 facilities throughout the state. The scanning system is utilized primarily in the facility during the intake process and when youth are returned from a court appearance or outside appointments to reduce contraband in facilities.
- **Axon body cameras** have been introduced in five new facilities, and body cameras inventories increased in facilities where cameras were already assigned. The expansion of Axon body cameras inventory allows for an increased ability to capture interactions between staff and youth visually and auditorily.

Intake is the entry point at which a youth is either diverted from or formally processed into the juvenile justice system. The division has 78 Community Services Offices and includes the Office of Residential and Community-Based Services and the Office of Re-Entry Services.

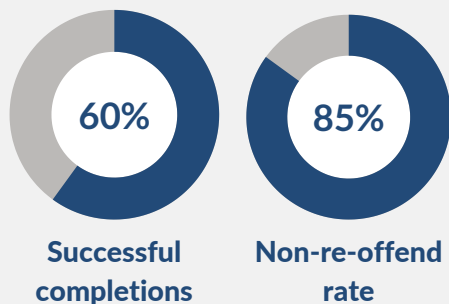

The Division of Community Services uses several tools and evidence-based programs and services to implement juvenile justice reform and improve the juvenile justice system through enhancements with mental health services, gang prevention training and preventative methods, and supporting human trafficking services for victims and families.

The program keeps youth, **ages 12 to 17**, engaged in pro-social learning opportunities, including homework assistance, work-readiness training, recreation, counseling, and family engagement. The program also focuses on youth accountability, community safety, and competency development. In FY2021, DJJ provided ERC services to 37 youth with a 60 percent completion rate and an 85 percent non-re-offend rate.

Educational Transition Centers (ETCs) – Located in Bibb, Chatham, Muscogee, and Richmond counties, ETCs are alternative educational settings for youth expelled or suspended from public school.
